

Because of Planned Parenthood Abortions
**BLACK CHILDREN ARE AN
ENDANGERED
SPECIES**

“Planned Parenthood is the largest abortion provider in the U.S. accounting for a quarter of the 1.1 million abortions each year in the U.S., 78% of their clinics are in minority communities including their newest target in Knoxville,”

– Dr. Alveda King

Abortion is not just a women’s issue. It is a human issue. And today, for African-Americans, it is a human crisis.

- African Americans are the only minority that is declining in population.
- Nearly 40% of all black pregnancies end in induced abortion.

That’s over 3x the rate of white women and 2x the rate of all other races combined. There are beautiful alternatives: adoption and parenthood... **but they are not money-makers for abortionists.**

“Abortion kills more African-Americans than AIDS, accidents, violent crimes, cancer, and heart disease combined – well over 1400 each day.

Planned Parenthood’s founder, Margaret Sanger, was a devout racist who created the “Negro Project” designed to sterilize unknowing women and others she deemed as “undesirables.”

“We do not want word to go out that what we want is to exterminate the Negro population...”

“Planned Parenthood continues its agenda of genocide while concerned citizens resist their subterfuge,” said Dr. Alveda King, niece of Dr. Martin Luther King, Jr.

“Once again, Planned Parenthood is opening a slaughtering house by the Black community. It has happened in Virginia Beach, Virginia, Madison, Wisconsin, Houston, Texas and now Knoxville. There are still some racist elements around that want Planned Parenthood facilities built under the disguise of providing healthcare. This organization provides “death and don’t care,” said Dr. Hunter.

This is the agenda that the Knoxville Planned Parenthood community wants to hide while they are building their new center. The people of Knoxville are right to say no to Planned Parenthood,” said Dr. King.
