

PLANNED PARENTHOOD is targeting your children with their **RADICAL agenda for **SEX EDUCATION****

From www.teenwire.com (Planned Parenthood's Website for Kids)

From the article, *You Got the Hook Up...*

Keep in mind that most people usually feel better about having sexual experiences when it's with someone they care about and trust. But hookups are common ways of exploring options.... Oh yeah, and a word about safety — random hookups may not be planned, but that doesn't mean you shouldn't **come prepared!**

From the article, *Guys Who Sleep With Guys...*

We could not in good conscience post the actual excerpt from the article. It is an overview of various sexual practices for young men who "sleep with guys" with explicit descriptions of how to accomplish them while reducing the risk of contracting an STD. These include oral "rimming" of the anus and anal sex with a description of the lubricants that make it more comfortable.

From the article, *Blasting Myths About Lesbians...*

For the record, sex doesn't have to include penile-vaginal intercourse to be "real." Real sex for lesbians, gays, bisexuals, or straight folks can include mutual masturbation, manual stimulation, rubbing or "dry humping," penetration with sex toys, or oral sex.

From the article, *Is Phone Sex Normal?*

Phone sex is a kind of sex play that may involve masturbating to orgasm. Sex play is any voluntary sexual activity, with or without a partner. Sex play that does not involve intercourse is called outercourse....One advantage of phone sex and some other kinds of outercourse, such as cybersex — online sex, is that there is no risk of pregnancy or sexually transmitted infections.

From the article, *Resolve to prepare!*

Anne (not her real name), 16, took Plan B after "fooling around" with her boyfriend led her to worry about whether she could get pregnant. Even though they didn't have penetrative sex, Anne wanted to make sure. "Because I knew Plan B was available, I worried less than I would have otherwise," she says.

From the article, *Safer Sex 101...*

Abstinence — not having any sex play — is the only thing that is 100 percent effective against infection, but there are many types of sex play that are considered lower-risk activities. These include

- manual stimulation — "hand jobs"
- mutual masturbation — phone sex, cybersex, watching each other
- oral sex
- vaginal intercourse with a latex or female condom
- anal intercourse with a latex or female condom
